DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, 3-5 and 8-11, drawn to a composition comprising specific protein agents, a kit thereof and a method of preventing or treating specific conditions using said composition, classified in class 514, subclass 2.
- II. Claims 1-2 and 6-11, drawn to a composition comprising specific nucleic acid agents, a kit thereof and a method of preventing or treating specific conditions using said composition, classified in class 514, subclass 44.

The inventions are distinct, each from the other because:

The proteins of Invention I are related to the nucleic acids of Invention II by virtue of encoding same. The DNA molecule has utility for the recombinant production of the protein in a host cell. Although the DNA molecules and proteins are related since the DNA encodes the specifically claimed protein, they are distinct compositions because they are physically and functionally different, and have different properties and uses. The methods of the inventions are different because they utilize patentably distinct active agents, and because the search for gene therapy is not overlapping with the search for administration of proteins.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1646

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
